

FLOUROTEF GREASE MP

A Premium Quality truly Multi-Purpose High Performance Grease fortified with PTFE

DESCRIPTION

FluoroTef Grease MP is suitable for use in all ball, needle and roller bearings as well as other applications where high performance general-purpose grease is required.

FluoroTef Grease MP has excellent mechanical and oxidation stability and excellent load carrying capacity. Therefore considerably increases lubrication frequencies and reduces lubricant consumption.

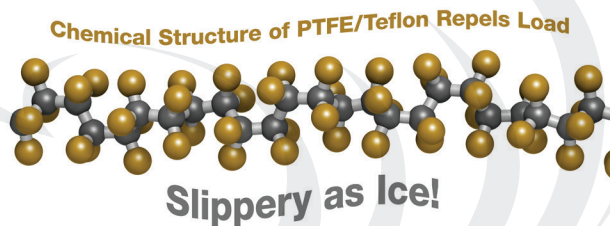

FluoroTef Grease MP fortified with sub-micron PTFE (commonly known as Teflon) is ideal for lubricating all mechanical equipment and machinery within the majority of industries and is therefore unsurpassed as multi-purpose grease.

APPLICATIONS

A truly multi-functional grease suitable for most industries and applications. Ideal for applications where lithium, lithium complex, extreme pressure (EP) grease or a grease with Solid Lubricating Additives e.g. PTFE is specified

FEATURES AND BENEFITS

- Excellent Thermal Stability - prolongs lubrication intervals, extending component life.
- Temp Range -30°C to +130°C
- Good Water Resistance & Sealing Properties
- High Load resists Shock Loading
- EP and PTFE additives reduces friction and wear extending component life
- A Premium Quality "Multi-Functional" grease therefore reducing inventory costs

Property	Result
Appearance	Buttery beige grease
NLGI Grade	2
Base Oil Type	Refined mineral oil
Solid Lubricating Additive	Micronised PTFE
Water resistance @ 3h/90°C	Max. grade 1
Thickener	Lithium soap
Temp Range (°C)	-30°C to + 130°C
4-Ball Weld Load	>400 kgs
