## MULTI-LUBE TF – THE ULTIMATE MULTI-PURPOSE TRIGGER SPRAY!

**A Superior, Multi-Purpose, Extremely Versatile Light Lubricating Spray Fortified with Submicron PTFE.**

### DESCRIPTION

**Multi-Lube TF** is a premium quality extremely versatile lubricant fortified with a stable suspension of PTFE (commonly known as Teflon) to give superior friction reduction and load carrying capability. It is designed for penetrating chains and threads as well as a general workshop spray that will lubricate, protect and clean components.

**Multi-Lube TF** has anti-corrosion and anti-oxidation additives and a solvent carrier, which, when evaporated, leaves behind a durable lubricating film that protects against corrosion and reduces wear and friction.

### APPLICATIONS

**Multi-Lube TF** is a truly universal maintenance lubricant and often replaces many other workshop sprays. Typical applications include chains, bearings, sliding surfaces, open lubrication points on machinery, wire ropes, locks, hinges and as a general maintenance product to clean, protect, displace water, and lubricate surfaces and components. Genuinely the applications are too numerous to list.

**Multi-Lube TF** is also suitable as a medium-term coating to protect against corrosion, wear and friction.

### FEATURES AND BENEFITS

- Highly refined base oil long life, extending wet life of lubricant
- Excellent penetrating properties frees up corroded nuts, bolts and threads
- Contains PTFE increased wear resistance
- Truly multifunctional can replace many workshop products
- Excellent coating product protects against fretting corrosion, wear and squeaks
- Removes moisture and water prevents components from corroding
- Wide temperature range -40°C to +170°C
- Comes in Handy, Refillable, Economical “Trigger Sprays”
- Environmental friendly – 100% refillable bottles
