

## Technical Data Sheet

### **INDU-TEK COPPER-EASE - Spray**

#### **High Temperature Anti-Seize Compound**

Copper-Ease is an effective anti-seize formulation, preventing metal-to-metal contact, seizing, galling and fretting corrosion. Copper Ease forms a protective coating that will not wash or burn off, even under extreme stress and high temperatures.

#### **Applications: -**

Ideal for use on bolts, nuts, pins, flanges, bushings, fittings, linkages and many more applications.

It is ideally suited for high temperature applications such as exhaust systems, brake pads, furnace mechanisms etc.

#### **Features and Benefits: -**

- Reduces friction & wear
- Excellent sealing even in corrosive environments
- “Handy” Aerosol Spray
- Lead & Nickel Free
- Enables easy disassembly of threaded parts, gaskets, and flanges etc.
- Resists Hot & Cold Water and Chemicals
- Lubricates, protects and eases dismantling

#### **Method of Application: -**

Shake can thoroughly before use.

Hold can upright and apply a thin even coating onto surface from approx 15 -30cm (6 to 12 inches).

For best results use on both male & female parts.

Use in well ventilated areas.

Also available as Indu-Tek Copper Anti-Seize Paste.

Part Number: ML-61111
